

## Make space your business: Apply for Nordic Launch accelerator program 2023!

Do you have a great idea for a space-connected start-up? Then Nordic Launch 2023 is for you!

For budding Nordic space entrepreneurs, Nordic Launch is a virtual pre-incubation accelerator program which prepares you for applying for €50.000 from ESA BIC to support the launch of your startup and gives you the opportunity to:

- Get exceptional idea-to-business coaching from ESA BIC coaches.
- Get access to the largest European space innovation network.
- Gain access to a wide selection of cutting-edge technology created by the space industry and start-ups.
- Develop your pitch skills to increase your chances of getting funding.

If you place among the top finalists, you will get the opportunity to pitch your start-up for investors at Space Investment Day.

Practical information:

Location: Online

Dates: 7/8, 8/8, 14/8, 15/8, 21/8, 22/8, 11/10

Participating countries: ESA BIC Denmark, ESA BIC Sweden and ESA BIC Finland.

**Application deadline: May 31**

Get in touch with your local ESA BIC organizer if you have any questions.
