

Come see our new labs!

UHV-SPM, XPS/TOF-SIMS and Semiconductor groups

We have completed the move of our laboratories from the Physics building to our new location in the Nanohouse.

On that occasion colleagues from IFA and iNANO are kindly invited to an informal house warming to come and see our new facilities and have a drink and some snacks.

**Thursday, March 14th
between 14:30-16:00**

Location is in the basement of building 1590

We hope to see you all

Jeppe, Trolle, Arne, Morten and our groups
